15. [FAKE migration](#)
16. [How to migrate to initial migration in Django](#)

Git and GitHub

1. [Code with harry](#)
2. [Basic git command](#)
3. [.gitignore](#)
4. [What is a pull request](#)

Talk is cheap. Show me the code.

SQL

1. MYSQL installation : video
2. tutorial point
3. geeksforgeeks
4. MYSQL in 4 hours

Decorators

1. geeksforgeeks
2. programiz
3. python course
4. geeksforgeeks
5. geeksforgeeks

Iterators

1. programiz

Logging

1. realpython

Closure

1. programiz

CSV file handling

1. Reading and Writing CSV Files in Python
2. Python CSV

Excel file handling

1. A Guide to Excel Spreadsheets in Python With openpyxl
2. python openpyxl

Context manager

1. geeksforgeeks

Exception Handling

1. Python custom exception
2. Python Exception Handling Using try, except and finally statement

Extra

1. How to run bash script in python
2. Name mangling
3. Pickling
4. Duck typing
5. Walrus operator
6. Switch-Case Statements Are Coming to Python
7. Do Not Use Print For Debugging In Python Anymore

Talk is cheap. Show me the code.
